This inspection was carried out under the provisions of Part XA of the Children Act 1989, as inserted by the Care Standards Act 2000; and Section 122 of the School Standards and Framework Act 1998
ABOUT THE INSPECTION

The purpose of this inspection is to assure government, parents and the public of the quality and standard of day care in accordance with the National Standards for Under Eights Day Care and Childminding; and that the nursery education for funded three and four year old children is of an acceptable quality. Inspection of nursery education also identifies strengths and weaknesses so that providers can improve the quality of educational provision and help children to achieve the early learning goals (elgs) by the end of the Foundation Stage. This inspection report must be made available to all parents.

If the setting has been inspected previously, an action plan will have been drawn up to tackle issues identified. This inspection, therefore, must also assess what progress has been made in the implementation of this plan.

Information about the setting

<tr>
<td>There are currently 44 children aged one to five years old on roll, this includes three funded three year olds and seven funded four year olds. Children attend for a variety of sessions in both the crèche and full day care facility. The setting currently supports several children with special educational needs and who speak English as an additional language.</td>

<tr>
<td>The Family Centre opens five days a week during term time only. Opening hours are from 09:30 to 15:30</td>
</tr>
<tr>
<td>There are five staff working directly with children in total, all of whom are appropriately qualified in early years and education, one member of staff is currently extending their training. The Family Centre receives support from the Early Years Development and Childcare Partnership (EYDCP) by using the services of a special needs teacher/coordinator. The setting is managed by a parent committee of the Pre school Learning Alliance (PSLA).</td>

accident book are not always countersigned by parents/carers.

All areas of health and safety are in place. Children are offered drinks and snacks during the day that are well-balanced and nutritious, parents are required to provide their children with a packed lunch. A written child protection procedure is in place and all staff are fully familiar with it.

Staff are aware of the individual needs of children and there is a good balance of child initiated and adult directed activities provided. Staff manage children's behaviour effectively and in a positive manner, children respond well to verbal praise and encouragement.

Good quality written information regarding the setting is provided for all parents. Ongoing information is also shared through regular newsletters and a notice board situated in the entrance area of the premises. There is also an effective system in place to give parents regular feedback regarding their child's care and progress.

**What has improved since the last inspection?**

A number of actions were made at the last inspection regarding staffing, health and safety and children's individual needs, all were successfully achieved within the agreed timescales.

Additional staff have been employed and staff rotas formulated to ensure that the correct adult: child ratios are maintained during lunch breaks and that a named deputy is present when the manager is absent.

Staff have been supported and enabled to undertake further training and more than half of the staff hold appropriate qualifications. A key worker system has been introduced.

Folding mattresses and individual bedding are available and a quiet area created to provide for children who wish to rest. An effective risk assessment system has been developed for identifying and limiting safety hazards. Parents are given written guidance on suitable and healthy packed lunches.

**What is being done well?**

- Children are offered a wide and varied range of play materials and activities that are stimulating, age and stage of development appropriate.
- The equipment used and available to children is of good quality; safe, clean well maintained and meets the children's individual needs.
- Staff practice with regard to the management of children's behaviour reflects the setting's policy and procedure; children are spoken to calmly and with respect.
- Partnership with parents is very positive, staff ensure that parents feel welcome within the setting and provide regular communication regarding their child's progress and development.

This inspection was carried out under the provisions of Part XA of the Children Act 1989, as inserted by the Care Standards Act 2000; and Section 122 of the School Standards and Framework Act 1998.
An aspect of outstanding practice:
The effective key worker system that enables parents to meet with staff on a monthly basis to review their child’s care and progress.

What needs to be improved?
- maintenance of the accident book.
- children's daily access to books that reflect positive images of the wider world.
- The procedures for recording that clearance have been taken up on all adults working on the premises.

Outcome of the inspection
Good

How effective is the nursery education?

Charlton Family Centre provides a vibrant and family focussed environment where children are eager to learn and are making generally good progress toward the early learning goals over all with very good progress in most areas.

Teaching is generally good. Staff are confident with the Foundation Stage and have a good understanding of how children learn in most areas. Staff are very skilled at engaging children, enabling them to use their imaginations and express themselves creatively. Staff are aware of children's individual needs and ably adapt activities to ensure that all children can take part.

There are effective processes in place regarding the support of children with special needs, those learning English as an additional language and the management of children's behaviour. However, the limited opportunities taken for children to link sounds and letters has an impact on children's learning.

Leadership and Management is generally good. Regular staff meetings ensure that communication between staff members is clear and effective, this is reflected in good team work and staff deployment. All staff have regular individual supervision and annual appraisals which are used to encourage personal and professional development and identify training needs. Very good use is made of local training opportunities for individuals by all staff as well as internal training as a whole team. All staff take an active part in planning and assessing children's progress. Systems to monitor the effectiveness of the curriculum for all children are not fully developed.

Partnership with parents is very good. Parents are made very welcome and are actively encouraged to be involved in their children's education and the running of the setting. Parents receive good quality information about the Centre and the Foundation stage of learning. They are kept well informed about their child's progress and development through termly reviews and written reports.

What is being done well?

- Children are independent learners. They access a wide range of well organised resources confidently throughout the day. Children are encouraged to make their own decisions and staff help them to build on their own knowledge.

- Children have frequent opportunities to express themselves creatively through role play, art, design, music and dance. Staff encourage and nurture children's creativity, enabling them to develop their own ideas.

- Parents input and involvement with their children's education is valued and encouraged. Effective induction and review systems keep parents well informed about both the provision and their child's progress; parents are
Parents are regularly asked to give their suggestions for improvement of the service and their knowledge and skills are recognised as an important resource and are well utilised.

What needs to be improved?

- opportunities for children to link sounds and letters within everyday activities to support their learning and progress in reading and writing
- the monitoring of planning to ensure that it is consistent and used to help children progress in all areas of learning

What has improved since the last inspection?

Not applicable.
### PERSONAL, SOCIAL AND EMOTIONAL DEVELOPMENT

**Judgement:** Very Good

Children's behaviour is good, they form positive relationships with staff and their peers and are able to express their needs. Children are confident independent learners but are also able to co-operate with each other and play together constructively, sharing and taking turns. Children are encouraged to learn about their local community and different cultures and faiths.

### COMMUNICATION, LANGUAGE AND LITERACY

**Judgement:** Generally Good

Children are fluent speakers engaging readily with adults and peers. They are able to recognise their names, familiar signs and access books appropriately and with enthusiasm. Children confidently access writing materials and enjoy practising their writing skills within other activities. Older and more able children can write their names forming recognisable letters. However, lack of opportunities for children to link sounds and letters impacts on their learning in other areas.

### MATHEMATICAL DEVELOPMENT

**Judgement:** Very Good

Children are able to count confidently and can recognise numerals. Children can recognise and match shapes, are able to use positional language such as on top, underneath and understand concepts such as bigger than, smaller than. Although opportunities are missed for children to begin to see numerals being used within other activities, this does not adversely affect their recognition of numbers and they enjoy forming numerals within free art and writing activities.

### KNOWLEDGE AND UNDERSTANDING OF THE WORLD

**Judgement:** Very Good

Children have daily access to construction toys and confidently plan and create their own designs making good use of resources. They have daily access to technology and programmable toys and access them with confidence. Children investigate and learn about the environment through well researched and resourced activities. They speak naturally about past and present events in their lives and learn about their own and other people's cultures and beliefs through topics and resources.

### PHYSICAL DEVELOPMENT

**Judgement:** Very Good

Children move around the room and access activities and equipment easily with an awareness of each other. Children learn about the importance of keeping healthy through a range of topics and everyday routines and activities. There is daily access to a range of equipment enabling children to develop their physical skills.

<td>Children access equipment easily and express themselves readily through art and craft materials. Children are given frequent opportunity and encouragement to use their imaginations naturally and confidently, responding to stories and creating their own scenarios within different play activities. They confidently sing songs from memory and have frequent opportunity to express themselves creatively through the use of music and dance.</td>

**Children’s spiritual, moral, social, and cultural development is fostered appropriately.**
**OUTCOME OF THE INSPECTION**

The provision is acceptable and is of good quality overall. Children are making generally good progress towards the early learning goals. The next inspection will take place in three to four years time.

**WHAT THE SETTING NEEDS TO DO NEXT: THE KEY ISSUES**

- Re-evaluate planning and teaching to ensure that children are encouraged to link sounds and letters within everyday activities to support their learning and progress in reading and writing.
- Develop a system which monitors the effectiveness of planning and teaching in all areas.

The provider must draw up an action plan within 40 working days of receipt of this report showing how the key issues detailed above will be addressed. The action plan must be made available to all parents and to the Local Authority if required. An evaluation of the action taken will form part of the next inspection of funded nursery education.

This inspection was carried out under the provisions of Part XA of the Children Act 1989, as inserted by the Care Standards Act 2000; and Section 122 of the School Standards and Framework Act 1998.
