

Compliance action taken for childcare provision

EY461937/C213226

Date: 14/05/2014

Summary of outcome

On 14 May 2014, the provider notified us of a serious incident involving a child leaving the pre-school unsupervised. The notification means that the provider met their legal responsibility as set out in the Early Years Foundation Stage welfare requirements to notify Ofsted of significant events. At an inspection we looked at the events leading to the incident to see whether all requirements were met. We found that the provider had failed to identify the potential risk to children leaving the premises unsupervised. Following the inspection, we sent the provider a notice to improve that asked them to: ensure that thorough risk assessments are completed to enable staff to identify potential hazards and inform them how to manage risks. In addition, the provider has completed a review of procedures for collection and drop-off times, installed additional security devices and reinforced staff and volunteers awareness of their roles and responsibilities. The provider remains registered with Ofsted.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years commencing on the date we complete our investigation.

For further information please read [Ofsted's Enforcement Policy](#).
