

Compliance action taken for childcare provision

139449/C197581

Date: 31/12/2014

Summary of outcome

On 3 December 2014, Ofsted conducted an announced visit following a notification from the provider that raised concerns about the nursery's accessibility, and the availability of records to demonstrate appropriate staff suitability. This included whether checks have been undertaken and that all persons working with, or having regular contact with, children are suitable. At an inspection, we looked into the action taken by the provider to rectify the concerns to see whether the setting was meeting the safeguarding and welfare requirements of the Early Years Foundation Stage, particularly relating to suitable people.

We found that the club has reviewed and updated its recruitment policy and procedures and re-checked the suitability of all the staff who work with the children. In addition, the required records are now accessible and available for inspection. This demonstrates that procedures are now more robust and only vetted persons have sole access to children.

Following our inspection, we are satisfied with the action taken by the provider and that the provider is meeting the requirements of the Early Years Foundation Stage. The provider remains registered with Ofsted.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years commencing on the date we complete our investigation.

For further information please read [Ofsted's Enforcement Policy](#).
