

Compliance action taken for childcare provision

EY368373/C213693

Date: 23/01/2015

Summary of outcome

On 19 May 2014 the provider notified Ofsted of an incident regarding the supervision of children. We carried out an inspection to look at whether the provider was meeting the Early Years Foundation Stage requirements relating to the adequate supervision of children. The manager carried out a detailed investigation and a review of the policies and procedures to ensure that these are adhered to. Staff held a room meeting to look at ways to further improve their practice. The manager continues to monitor the nursery provision to ensure children are safe at all times. The notification means that the provider met their legal responsibilities as set out in the Early Years Foundation Stage welfare requirements to notify Ofsted of significant events. The provider remains registered with Ofsted.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years commencing on the date we complete our investigation.
