

Compliance action taken for childcare provision

EY486932/C260128

Date: 16/10/2015

Summary of outcome

On the 14 September 2015, we received a notification that raised concerns over the provider's understanding of the safeguarding reporting protocols. At an inspection we looked into the provider's knowledge and understanding of safeguarding. In particular, we looked at the provider's understanding of safeguarding policy and behaviour management. We found that the provider had not followed the correct reporting procedures following a concern raised over staff practice in managing children's behaviour. However, the provider is now fully aware of the procedures to follow and all staff have had their safeguarding training updated. Staff consistently promote children's behaviour appropriately. There is no risk to children's welfare. The provider has already taken the necessary action and no further action is required. The provider remains registered with Ofsted.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years commencing on the date we complete our investigation.

For further information please read [Ofsted's Enforcement Policy](#).
