

Compliance action taken for childcare provision

EY493640/C329520

Date: 10/11/2017

Summary of outcome

On 19 October 2017, we carried out an inspection which judged that the overall effectiveness of the setting was inadequate and did not meet the needs of the children who attend. Following the inspection, we issued a welfare requirements notice, due for completion by 3 November 2017 that required the provider to: ensure that staff understand and implement robust safeguarding policies and procedures, with particular regard to the use of mobile phones and cameras in the setting; ensure that required records are easily accessible and made available to Ofsted upon request, with particular regard to accident records; improve knowledge of information that must be provided to Ofsted, with particular regard to any change to the person who is managing the provision. It is an offence for a person who, without reasonable excuse, fails to comply with a welfare requirements notice. Failure to comply may result in prosecution.

On 6 November 2017, we carried out an announced visit to see what action the provider had taken to meet the actions raised in the welfare requirements notice. We spoke to a member of the senior management team and staff. We observed practice and looked at documentation. We found that there were suitable arrangements to ensure the safe use of mobile phones in the setting. All required records were available on site for inspection and the provider knew what information must be notified to Ofsted. We are satisfied with the action taken in respect of the welfare requirements notice and that no further action is required. The provider remains registered with Ofsted.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those

registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website for a period of five years commencing on the date we complete our investigation.

For further information please read the *Early years compliance handbook* which can be found here at www.gov.uk/government/publications/early-years-provider-non-compliance-action-by-ofsted .
