

Compliance action taken for childcare provision

146066/C337701

Date: 15/02/2018

Summary of outcome

On 26 January 2018 the provider notified us of a required matter. The notification means that the provider met their legal responsibility as set out in the early years foundation stage welfare requirements to notify Ofsted of a significant event. We have served a welfare requirements notice. This is a legal notice that requires the provider to take the actions below within the timescales set out. The provider will be able to give parents further information about this. Actions needed; ensure that all staff have an up to date knowledge of safeguarding issues and are able to identify signs of possible abuse and neglect at the earliest opportunity and respond in a timely and appropriate way; implement effective procedures to ensure that any risks to children are identified and that immediate steps taken to remove or minimise these risks; review key person arrangements, to ensure that every child's care is tailored to meet their individual needs to help children develop a settled relationship; ensure staffing arrangements and the deployment of staff meets the needs of all children to maintain their safety and support their individual needs. We are satisfied with the action the provider has taken in response to these actions. The provider remains registered with Ofsted.

Publication of compliance action

We aim to ensure that the welfare of children and young people is protected in the services we regulate. The Childcare Act 2006 and accompanying regulations set out our responsibilities to regulate childminders and childcare providers. This includes the enforcement powers we have in relation to those registered providers who do not comply with the requirements for registration.

We publish details of any actions we take, or the childminder or childcare provider takes to bring about compliance with requirements on our website

for a period of five years commencing on the date we complete our investigation.
